

About **Nakedenergy**[™]

We hide nothing

Introduction

Naked Energy Pty Ltd (formerly Mylite Pty Ltd) was founded in October 2014 as a part-time lighting business. Over the years, we recognized a growing opportunity within the renewable energy sector and pivoted to focus on solar power solutions, ultimately making solar systems the core of our business. In 2018, we rebranded to Naked Energy to better reflect this strategic shift toward sustainability and energy efficiency.

Today, Naked Energy is a leading player in the solar industry, offering cutting-edge technology, high-quality products, and comprehensive energy solutions designed to help consumers reduce costs and improve energy independence. With over 15 years of industry expertise, a strong network of trusted partners, and access to the latest innovations in solar technology, Naked Energy is well-positioned to capitalize on the rapidly expanding market for clean energy solutions.

As we continue to grow, our commitment to providing high-performance, cost-effective solar systems drives both our mission and our vision for a sustainable, energy-efficient future.

Our Products & Services

- Commercial Solar Systems
- Residential Solar Systems
- Off Grid Solar System
- Hot Water Systems
- Water Filtration Systems
- Embedded Networks
- EV Chargers
- Electrical Maintenance
